For Supreme Judges,  
SAMUEL E. PERKINS, of Marion.  
ANDREW DAIVISON, of Decatur.  
JAMES M. HANNA, of Vigo.  
JAMES L. WORDEN, of Whitley.

### Democratic Mass Meeting.

The Allen County Democratic Central Committee having just been informed that the CONVENTIONAL CONVENTION for the 10th District, will probably be called about the 24th of the present month and there not being time to give notice for the Township to hold meetings to appoint Delegates to a County Convention, have concluded to call a MASS MEETING of the Democracy of Allen County, to be held at the Court House on Saturday, the 19th day of June, at 1 o'clock P.M., for the purpose of appointing 32 Delegates to represent this County in the Congressional Convention now to be held.

F. P. RANDALL, Chairman

## Fort Wayne Sentinel.

SATURDAY, JUNE 12, 1858.

Congress is busily engaged finishing up its work, so long delayed by the interminable Kanawha struggle. The adjournment, which was to have taken place on Thursday last, has been postponed to next Monday.

The latest accounts from Washington leave no further room for the apprehension of any difficulties to arise out of the outrages committed by the British on our vessels in the Gulf. The English admiral disavows having authorized the acts of the officers of the steamers who have stopped the American vessels, and has sent peremptory orders for them to desist from their noxious course.

### Congressional Convention.

A letter has been received from Dr. Martin of Noble County, Chairman of the 10th Congressional District, proposing to hold a Convention for nominating a candidate for Congress from this district, at Kendallville, on the 24th inst. This, we think, is altogether earlier than is necessary, and much earlier than we have been in the habit of holding them; besides, the notice is too short for getting up regular conventions in the several counties to appoint delegates to the Convention; nor have the people had the matter under consideration, or even begun to canvass the merits of the different persons whose names it might be advisable to present to the convention for nomination. We have not heard of any person spoken of as likely to be the choice of this county for that station, nor have we noticed in any of the democratic papers in the district a single suggestion on the subject.

The last of July, or first week in August, would, in our judgment, have been a better time for the convention than the one named.

We think the action of the Chairman of the Committee is hasty and premature, and may cause suspicions that it is intended to promote the interests of some aspirant who has got his wires set in advance of all competitors, rather than the general good of the democratic party. We make no such charge, and hope there may be no grounds for such suspicion; but we must say it would have been better if a later day had been named, and especially if longer notice had been given of the convention, so that the merits of different candidates might have been discussed, and our County Conventions regularly got up in accordance with the usages of the party. The shortness of this notice precludes the possibility of holding township meetings and appointing delegates to a regular county convention; our County Committee have, therefore, as will be seen by a notice at the head of this column, called a Mass Convention, to be held next Saturday, in the Court House in this city, for the purpose of appointing delegates to the Congressional Convention at Kendallville on the 24th inst.—if the majority of the Congressional District Committee should agree with the Chairman that it would be advisable to hold it on that day.

Our regular County Convention for nominating candidates for County Officers, will be held at a more fitting time, of which due notice will be given.

**Murderer arrested.**—In another column will be found an account of a horrible murder committed by the notorious Jim Lane in Kansas, and the arrest and imprisonment of the hardened criminal. Jim's late career has been such as to prepare him for his present position, and no one can be astonished at the result of the lawless life he has led while in that territory; and yet this blood thirsty wretch has been countenanced, supported, and held up to public admiration by numbers of respectable men calling and doubtless believing themselves Christians! Let his fate be a warning to such Christians, not hereafter to canonize and glorify ruffians whose only claim to distinction is a wanton disregard of human life and an absolute contempt for human law. As they go so shall they reap. If a few more of the same sort could accompany him to the scaffold it would be a happy thing for Kansas and the country generally.

By ORDER OF THE ASSOCIATION.

WASHINGTON, June 9.—Private advice has been received from Commander Hodges of the steamer Water Witch, at Key West stating that a British vessel has been despatched after the steamer Styx with official instructions to cease the visitation of American vessels and that the British cruisers are acting no new orders but those of 1847.—The news here produced a good effect.

Various exaggerated and false reports have been circulated relative to the difficulty between Senators Davis and Benjamin, such as the arrest of the latter and the affair has been honorably adjusted through the mediation of friends.

No War.—The Tribune correspondence says:

Washington, June 8.—The Secretary of the interior has asked Congress for an appropriation of \$100,000 to enable him to take measures to preserve the peace in the northern territories, however threatened by Indians.

It states that this number is sufficient to meet the emergency.

The long-contested wet weather is also seriously injuring the wheat,

which had previously looked so promising, and it is made to be feared the yield will prove light and of inferior quality.

The prospects of the farmers are indeed gloomy, and as the prosperity of the country is so intimately dependent on that of the agricultural interest, we much fear that we shall experience hard times and an income scarcity of money for the next year.

The floods have seriously injured the Toledo,

Wabash & Western Railroad, and obstructed the running of trains. A serious break is reported some 15 or 18 miles west of here, off which the passenger train was precipitated on Thursday, causing up the locomotive, tender, and baggage car, but fortunately not injuring any of the passengers or employees of the road. The Wabash, below Lafayette, is also said to be carried away.

CONGRESSIONAL.

WASHINGTON, June 7.—**House.**—Mr. Savage, of Tennessee said that, as the friend of Mr. Hughes, in the difficulty between him and Mr. Harris, of Illinois, growing out of the language used during the debate in the Minnesota election case, he had met Mr. Wm. H. Polk, the friend of Mr. Harris. They had come to the conclusion that no hostile meeting was necessary, and stated that the matter had been settled on terms honorable to both gentlemen. The House passed the bill providing for keeping and disbursing all public documents through the Secretary of the interior.

On motion of G. C. Jones, the House went into committee on the subject of the state of the Union on the committee's 61st amendment to the omnibus appropriation bills.

The approbation of \$75,000 for the Capitol extension gave rise to a debate, during which Mr. Taylor ineffectually sought to amend it to a proviso that no part of the money shall be applied to the interior, painting or decorating of the Capital.

Mr. Marshall, of Kentucky, offered an amendment providing that no part of the money shall be expended for structure or painting, unless it be recommended by distinguished artists—three in number, selected by the President; the designs to receive the approbation of the Joint Library Committee.

The Senate, in conference with Mr. Marshall's

provision, agreed to it.

The House concurred in the amendment appropriating \$11,469 for Maine, and \$2,213 for Massachusetts, for the satisfaction of claims growing out of the Arrostook War, and for which provision was made in the Ashburton Treaty.

**SENATE.**—Mr. Hunter, from the finance committee, reported a bill making appropriation for carrying the trans Atlantic mails.

Mr. Hunter introduced a resolution relating to the expenses of the next fiscal year—the purport of which was that the Executive shall instruct the heads of Departments to confine their estimates within the limits of sixty four millions of dollars.

Bills were passed granting pensions to the widows of Generals Jones and General Gaines.

WASHINGTON, June 8.

The House went into Committee on the Senate's amendment to the miscellaneous appropriation bill.

**SENATE.**—The Senate passed the naval appropriation bill.

Mr. Mallory moved an amendment providing for the construction of 10 sloops of war.

Mr. Hale proposed to reduce the number to 6.

The original motion was also lost by 14 to 29.

At a later period, an amendment authorizing the construction of five propellers and one side-wheel steamer for the Chinese service, was adopted 13 to 17.

An amendment giving the president power to issue letters of marque, in certain cases, was rejected by a vote of 40 to 6.

The various propositions, offered, led to a reversal of the discussion of the recent British outrages in the gulf. From the tone of the debate it is evident that, with one or two exceptions the members of the Senate are disinclined to adopt any measures which will precipitate an issue with Great Britain on the question.

Correspondence of the Evening Post—Cause of the British Visitation.

WASHINGTON, June 2, 1858.

There is a report that the cause of the ships which have been made in the Gulf by the British war vessels grew out of the attempt of a certain organization to introduce Africans to Mississippi as apprentices. This organization referred to as the African Slave Society, was formed in 1850, and Col. Jacques appointed in his place.

Attempts to practice apprenticeship, not slaves.

Col. Jacques, a slave trader in New Orleans, seeing that the transaction, under the cover of apprenticeship, would be likely to injure their private business, in the traffic in human flesh, and they resolved to check it, and knew of no better way than by sending word to the British Consul in New Orleans that the schooners in question were slaves, and that the British cruisers had better be on the look out for them.

It is asserted, upon what I consider reliable authority, that the desire on the part of the British fleet to capture these vessels induced all concerned in the Vigilance movement, White

owner will certainly be equally as heavy. That

the sheriff has seized the ballot-boxes. If

so, there will be no election to-day.

The streets are quiet, but no man's life is safe outside the different barricades. An attack was made on the Vigilance Committee, Saturday night.

During the confusion, a cannon was accidentally discharged, killing four and wounding twelve.

The election has gone in favor of the Americans. Still is elected Mayor by a large majority.

The Vigilance Committee are still behind barricades, not half of whom voted. They say they will carry out resolutions to free the city of ruffians. Great rejoicing in Lafayette Square among the negroes nearer us, in the Wabash and Illinois Valley.

In the former, as represented by the Evansville Journal, the losses by the farmers and property owner will certainly be equally as heavy. That

### Poisonous Beauty.

The natural desire of all to display what personal attractions they may possess to the best possible advantage, and the pleasure which all mankind, whether civilized or savage, takes in looking upon a beautiful female face, has led the weaker sex, in many instances, to commit violations of common sense, which cause feelings of deep regret and commiseration in the breast of every true man and woman. There is no custom so foolish and frivolous as that of painting the face, or endeavoring to obtain by artificial means an unnatural complexion; and this system, when first, we are inclined to regard as simply childish, assumes the gravest nature of a crime when we regard the means adopted to attain this silly end.

For example: Arsenic is used in great quantities to produce a healthy look, ruby lips and roundness of form and we have it on good authority, that in many parts of Europe, and for ought we know, to the contrary, in America, arsenic is eaten in large quantities, and Dr. Tschudi, the well known traveler, says "it does not seem to us that there was not bad enough! Many tons' weight of arsenic are sold annually in the form of cosmetic powders for outward application.

Bismuth and antimony are also largely used in the manufacture of these articles, without which ladies do not consider their toilet complete; and, much as they may abhor the character of a Borgia or Brinvilliers, they are themselves provokingly impudent, dangerous as either of those two females—the difference being that one is doing all she can to injure herself, and the others poisoned their friends. It is said of celebrated actress that she must, in her lifetime, have used half a hundred weight of paint of the mud in the shape of cosmetic powders, and the pearl powders, rouge and the whole array of so called beauties are all, more or less, highly poisonous. It surely can not be right to use or encourage the use of these articles, more especially when we know that there are plenty of vegetable compounds which will answer just as well, and will not stop the pores like poisonous mud's.

The Spanish ladies use a harmless cosmetic, composed of almonds, and another of pistachio nuts, ground in water, and which are said to have no deleterious effects. We have no space to expatiate as fully as we would wish on the morality or the physiology of these facts, but we fulfil our duty in calling public attention to them, that the good sense of the people may rise in mutiny against painted beauty.—Scientific American.

*How to Know when the Weather will Change.*—One of the weather prophets, who has been a long and a seemingly scientific observer of the weather, and who does not hold to the old adage, that "all signs fail in a dry time," has lately communicated the following to an agricultural paper:

"When you wish to know what the weather is to be, go out and select the smallest cloud you see, keep your eye upon it, and if it decreases and disappears, it shows a state of the air which will be sure to follow by fine weather; but, if it increases in size, take your great coat with you, if you are going from home for falling weather, will be not far off. The reason is this: when the air is becoming charged with electricity, you will see every cloud attract all lesser ones toward it, until it gathers into a shower; and, on the contrary, when the fluid is passing off or diffusing itself, then a large cloud will be seen breaking up."

*Date of the Apostles.*—Matthew is supposed to have been born at Tyre, or Sidon, or was slain with the apostles at the city of Ethiopia.

Mark was dragged through the streets of Alexandria, in Egypt, till he expired.

Luke was hanged upon an olive-tree, in Greece.

John was put into a cauldron of boiling oil at Rome, and escaped death. He afterward died a natural death at Ephesus, in Asia.

JAMES THE LESS was thrown from a piazzza, or wing of the temple, and then beaten to death with a fuller's club.

Philip was hung up against a pillar, at Hieropolis, a city of Phrygia.

Bartholomew was flayed alive by the command of a barbarous king.

Andrew was bound to a cross, whence he preached to the people till he expired.

Thomas was run through the body with a lance at Coramandell, in the East Indies.

Iude was shot to death with arrows.

Simon was crucified in Persia.

Mathias was first stoned and then beheaded.

*Grammar.*—"Jake, did you ever study grammar?"

"I did, sir."

"What case is Mr. D—?"

"He's an objective case."

"How so?"

Because he objected to paying his subscription that's been owing for three years and a half."

"Right, What is a noun?"

"Don't know, but I know what a noun is."

"Well, what is it?"

"Running off without paying the printer, and getting on the black list as a delinquent."

"Good! What is a conjunction?"

"A method of collecting outstanding subscriptions in conjunction with the constable—never employed by printers but the last extremity."

"That's right! Go to your seat, and spit out your paper wads at the girls."

A couple were recently married in Tuscarawas county who, it is said, received baptism in the church in the evening, and were married the same night. The bride was a minor, and her parents not consenting to the union, she obtained the license by putting the number 18 on her head and 19 in one of her shoes and swearing that she was between 18 and 19. Young America is still ahead.—Progressive Age.

There is a little place in this State called Barnerville, which must be a paradise for young men. The village, it is said, has one hundred married young ladies, and but sixteen unmarried young men! What clover those sixteen fellows are in!

*Too True.*—The most solemn duties are generally most readily undertaken. How many a man would stand god-father to your second in a duel, to stand god-father to your child, yet would strongly object to the loan of a five dollar bill.

Why is a watch dog larger at night than he is in the morning? Because he is let out at night and taken in the morning.

A duol was fought in Mississippi recently by Mr. T. Knott and Mr. A. W. Shott. The result was that Knott was shot, and Shott was not.

Who ever heard of a widow committing suicide on account of love? A little experience is very wholesome.

A young man who has recently taken a wife, says he did not take it half as hard to get married as he did to get the furniture. Just so.

A good old Know Nothing Methodist, having read a great deal in the papers about the "Confederate Kansas Bill," says he thinks Conference might find something better to do than getting up bills about Kansas.

"You'll have to bear the responsibility," said a mother to a bright-eyed young daughter of our acquaintance, who thought of marrying without the maternal approval. "I expect to bear several, ma," said Fanny.—Louisville Journal.

"Galler citizens," said a candidate for Congress recently, somewhere out West, "fall citizens, you are well aware I never went to school in my life but three times, and that was to a night school. Two nights the teacher didn't come, and the other night I hadn't any candle."

"Jenny," said a landlady to her "help," the other morning, "Jenny was there any fire in the kitchen last night, while you were sitting up?"

"Yes, marm," said Jenny; "there was a spark when I went down, and I soon fanned it into a flame."

The landlady looked suspiciously at Jenny, but the innocent girl, went on scrubbing and humming, "Katy Darlin."

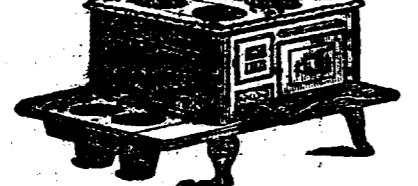

A young lady having been jilted by a gentleman, who declared he should "look higher for a wife," wrote the following for his epithet:

"Here lies a man who looks so high, And they who look high as he, Declined his bride they would not be; And now them both lie dead a heap."

And now has gone to the "old scratch,"

## DEMOCRATIC STATE TICKET

Secretary of State,  
DANIEL MCCLURE, of Morgan.

Auditor of State,  
JOHN W. DODD, of Grant.

Treasurer of State,  
NATHANIEL F. CUNNINGHAM, of Vigo.

Superintendent of Public Instruction,  
SAMUEL L. RUGG, of Allen.

Attorney General,  
JOSEPH E. McDONALD, of Montgomery.

For Supreme Judges,  
SAMUEL E. PERKINS, of Marion.

ANDREW PAVISON; of Decatur.

JAMES M. HANNA, of Vigo.

JAMES L. WORDEN, of Whitley.

Democratic Mass Meeting.

The Allen County Democratic Central Committee just been informed that the CONVENTIONAL CONVENTION for the 10th District will probably be called about the 24th of the present month, and there not being time to give notice for the Township to hold meetings to appoint Delegates to a County Convention, have concluded to call a MASS MEETING of the Democracy of Allen County, to be held at the Court House on Saturday, the 19th day of June, at 1 o'clock P.M., for the purpose of appointing 32 Delegates to represent this County in the Congressional Convention to be held.

F. P. RANDALL, Chairman.

## Fort Wayne Sentinel.

SATURDAY, JUNE 12, 1858.

Congress is busily engaged finishing up its work, so long delayed by the interminable Kansas struggle. The adjournment, which was to have taken place on Thursday last, has been postponed to next Monday.

The latest accounts from Washington leave no further room for the apprehension of any difficulties to arise out of the outrages committed by the British on our vessels in the Gulf. The English admirals having authorized the acts of the officers of the steamers who have stopped the American vessels and have sent peremptory orders, for them to desist from their noxious course.

Congressional Convention.—A letter has been received from Dr. Martin of Noble County, Chairman of the 10th Congressional District, proposing to hold a Convention for nominating a candidate for Congress from this district, at Kendallville, on the 24th inst. This we think, is altogether earlier than is necessary, and much earlier than we have been in the habit of holding them; besides, the notice is too short for getting up regular conventions in the several counties to appoint delegates to the Convention, nor have the people had the matter under consideration, or even begun to canvass the merits of the different persons whose names it might be advisable to present to the convention for nomination. We have not heard of any person, spoken of, as likely to be the choice of this county for this station, nor have we noticed in any of the democratic papers in the district a single suggestion on the subject. The last of July, or first week in August, would, in our judgment, have been a better time for the convention than the one named.

Prof. PALMER has finished his course of lectures on Physiology, Anatomy, &c., and is about to visit Lima, Ohio, to the citizens of which place we cordially commend him. His lectures have been well attended, and have given the greatest satisfaction. Mrs. PALMER, his accomplished lady, has also given a course of lectures to a large and respectable class of ladies, which are spoken of in the highest and most flattering terms by those who attended. She is thoroughly versed in the science of physiology, and has a happy faculty of imparting her knowledge, which renders her lectures at once interesting, instructive and profitable to her hearers. They leave many warm friends and admirers behind, and will doubtless acquire more wherever they stay and lecture.

Young Men's Christian Association.—FORT WAYNE, Ind.

An adjourned meeting held on the 1st inst., for the purpose of organizing a "Young Men's Christian Association" in this city: H. T. Dumbian, presiding, and H. C. Hartman, acting as Secretary, a committee before appointed for that purpose, reported a constitution and by-laws for a permanent organization, which after full discussion were unanimously adopted.

The meeting then proceeded to the election of permanent officers which resulted as follows: T. A. Jenkins, President; C. J. Daubel, Corresponding Secretary; M. W. Wines, Recording Secretary; George Humphrey, Treasurer; H. Jones, Librarian. The business meetings will be held on the evenings of the first and third, and the devotional meetings the second and fourth, Tuesdays of each month. The necessity of an association of a social and literary character, for the moral benefit of the young men, has long been felt. It is the intention of this Association as soon as possible, to establish a Library and Reading Room, where young men may spend their evening both pleasantly and profitably.

The Association has been organized under very favorable auspices, and it is sustained as it ought to be, by the means of doing much good. There are already twenty-three members, and we expect as soon as it becomes generally known that such a society has been organized, to see the numbers very much increased. We leave it with all good men to decide the merits of such an association, and shall confidently look to them for aid.

By ORDER OF THE ASSOCIATION.

WASHINGTON, June 9.

Private advices have been received from Commander Rodgers of the steamer Wate Witch, at Key West stating that a British vessel had been despatched after the steamer Styx with official instructions to cease the visitation of American vessels, and further that the British cruisers are acting no new orders but those of 1847. The news here produced a good effect.

Various exaggerated and false reports have been circulated relative to the difficulty between Senators Davis and Benjamin, such as the arrest of the latter and a duel. Both have been in their seats to day, and the affair has been honorably adjusted through the mediation of friends.

No War.—The Tribune correspondence says:

Lord Napier's despatches yesterday from the Commander of the West India Squadron, expressly advised, having authorized the recent acts of visitation and explicitly disclaiming any instructions contemplating such a contingency. He states further, that immediately on being informed of the adverse proceedings he despatched the sloop of war after the Styx and other cruisers with orders to bring them in, intending to hold the officers to a strict account. These despatches were communicated to the President and Cabinet and produced a feeling of relief. Lord Napier feels satisfied from this intelligence that his despatches from England next week will authorize the full explanation.

The instructions under which the British are now acting are ten years old.

A Governor Fogged!—The Missouri Tele-

graph says that Gov. Stewart of that state,

while pretty drunk, got into a quarrel with a Mr. Vandover, about the pardon of the St. Louis murderer, O'Bleens, which ended in a fight.

The Gov. getting a very satisfactory thrashing.

Stewart's friends say it was not fair, as he was

too drunk to fight.

The floods have seriously injured the Toledo, Wabash & Western Railroad, and obstructed the running of trains. A serious break is reported some 15 or 18 miles west of here, off which the passenger train was precipitated on Thursday, smashing up the locomotive, tender, and baggage car, but fortunately not injuring any of the passengers or employees of the road. The Wabash bridge, below Lafayette, is also said to be carried

## CONGRESSIONAL.

WASHINGTON, June 7.

HOUSE.—Mr. Savage of Tennessee said that the friend of Mr. Hughes, in the difficulty between him and Mr. Harris, of Illinois, growing out of the language used during the debate in the Minnesota election case, he had met Mr. Wm. H. Polk, the friend of Mr. Harris. They had come to the conclusion that hostile meeting was necessary, and stated that the matter had been referred to a committee for honorable treatment to both gentlemen.

The House passed the bill providing for keeping and disbursing all public documents through the Secretary of the interior.

On motion of J. Glancy Jones, the House went into committee of the whole on the state of the Union on the Senate's 64 amendments to the miscellaneous appropriation bills.

The approbation of \$75,000 for the Capitol extension gave rise to a debate, during which Mr. Taylor ineffectually sought to amend it to a proviso that no part of the money shall be applied to the interior, painting or decorating of the Capital.

Mr. Marshall, of Kentucky, offered an amendment, providing that no part of the money shall be expended for structure or painting, unless it be recommended by distinguished artists—three in number, selected by the President; the designs to receive the approbation of the Joint Library Committee.

The Senate amendment, with Mr. Marshall's proviso, was agreed to.

The House concurred in the amendment appropriating \$11,469 for Maine, and \$2,215 for Mass., for the satisfaction of claims growing out of the Arrostook War, and for which provision was made in the Ashburton Treaty.

SENATE.—Mr. Hunter, from the finance committee, reported a bill amending appropriation for carrying the trans Atlantic mails.

Mr. Hunter also introduced a resolution relating to the expenses of the next fiscal year—the purport or which was that the Executive shall instruct the heads of Departments to confine their estimates within the limits of sixty four millions of dollars.

Bills were passed granting pensions to the widows of General Jones and General Gaines.

WASHINGTON, June 8.

The House went into Committee on the Senate's amendment to the miscellaneous appropriation bill.

SENATE.—The Senate passed the naval appropriation bill.

Mr. Mallory moved an amendment providing for the construction of 10 sloops of war.

Mr. Hale proposed to reduce the number to 6. Lost—31 to 22.

The original motion was also lost by 14 to 20. At a later period, an amendment authorizing the construction of five propellers and one side wheel steamer for the Chinese seas, was adopted—18 to 17.

An amendment giving the president power to issue letters of marque, in certain cases, was rejected by a vote of 40 to 6.

The various propositions offered led to a removal of the discussion of the recent British outrages in the gulf. From the tone of the debate it is evident that, with one or two exceptions the members of the Senate are disinclined to adopt any measures which will precipitate an issue with Great Britain on the question.

Congressional Finance of the Existing Post.

Cause of the British Visitation.

WASHINGTON, June 2, 1858.

There is a report that the cause of the search which have been made in the gulf by the British vessels grew out of the attempt of a certain organization to introduce Africans to Mississippi as apprentices. The organization referred to, sent from Mississippi two schooners to the coast of Africa to procure apprentices, not slaves.—Certain slave breeders and traders in New Orleans, seeing that the transaction, under the cover of "apprentices" would be likely to injure their private business, in their traffic in human flesh, and they resolved to check it, and knew of no better way by sending word to the British Consul in New Orleans that the schooners in question were slaves, and that the British cruisers in the Gulf had better be on the look out for them. It is asserted upon what I consider reliable authority, that the desire on the part of the British fleet to capture these vessels induced our government to interfere.

DROWNED.—On Tuesday last, Rev. P. Kahl, one of the professors in the Lutheran College at this place, while bathing in the mill-race above Wines Mill, was unfortunately carried off by the strong current and drowned. His body has not yet been found. He leaves a large family to mourn his untimely end.

Prof. PALMER has finished his course of lectures on Physiology, Anatomy, &c., and is about to visit Lima, Ohio, to the citizens of which place we cordially commend him.

His lectures have been well attended, and have given the greatest satisfaction. Mrs. PALMER, his accomplished lady, has also given a course of lectures to a large and respectable class of ladies, which are spoken of in the highest and most flattering terms by those who attended. She is thoroughly versed in the science of physiology, and has a happy faculty of imparting her knowledge, which renders her lectures at once interesting, instructive and profitable to her hearers.

They leave many warm friends and admirers behind, and will doubtless acquire more wherever they stay and lecture.

Young Men's Christian Association.

WASHINGTON, June 9.

An adjourned meeting held on the 1st inst., for the purpose of organizing a "Young Men's Christian Association" in this city: H. T. Dumbian, presiding, and H. C. Hartman, acting as Secretary, a committee before appointed for that purpose, reported a constitution and by-laws for a permanent organization, which after full discussion were unanimously adopted.

The meeting then proceeded to the election of permanent officers which resulted as follows: T. A. Jenkins, President; C. J. Daubel, Corresponding Secretary; M. W. Wines, Recording Secretary; George Humphrey, Treasurer; H. Jones, Librarian. The business meetings will be held on the evenings of the first and third, and the devotional meetings the second and fourth, Tuesdays of each month.

The necessity of an association of a social and literary character, for the moral benefit of the young men, has long been felt. It is the intention of this Association as soon as possible, to establish a Library and Reading Room, where young men may spend their evening both pleasantly and profitably.

The Association has been organized under very favorable auspices, and it is sustained as it ought to be, by the means of doing much good. There are already twenty-three members, and we expect as soon as it becomes generally known that such a society has been organized, to see the numbers very much increased. We leave it with all good men to decide the merits of such an association, and shall confidently look to them for aid.

By ORDER OF THE ASSOCIATION.

WASHINGTON, June 9.

Private advices have been received from Commander Rodgers of the steamer Wate Witch, at Key West stating that a British vessel had been despatched after the steamer Styx with official instructions to cease the visitation of American vessels, and further that the British cruisers are acting no new orders but those of 1847. The news here produced a good effect.

There are already twenty-three members, and we expect as soon as it becomes generally known that such a society has been organized, to see the numbers very much increased. We leave it with all good men to decide the merits of such an association, and shall confidently look to them for aid.

Arrival of the Kangaroos.

NEW YORK, June 9.

The steamship Kangaro from Liverpool, on the morning of the 26th ult., arrived this morning. The Arabia arrived out of P. M., on the 23d.

A line of steamers from Galway to America is again projected. The trip across the Atlantic is to be made in 6 days and the first steamer is to sail about the 1st of July.

MARSHAL.—On Wednesday morning last

Rev. Mr. Lourie, Mr. O. L. STARKER, &

Mrs. HANNAH A. FAIRFIELD, both of this city,

We acknowledge a liberal share of delicacies

for which we return our thanks to the

fair bride, and wish both a life of unalloyed

happiness. The happy groom has now a

field for his aspirations and exertions. We wish him an abundant success, and the empirical realization of his most ardent expectations.

MARRIED.—On the 5th inst., by Wm. W.

Stevens, J. P., Mr. HENRY STRONG, to Mrs.

ACEY Trott, both of this city.

Fort Wayne Railroad Time Table.

INDIANAPOLIS, JUNE 9.

Governor Willard has been very ill, with pneumonia, for some time, but for a few days he has been convalescent. He has taken a relapse, and is now considered to be in a dangerous condition. The Leavenworth Democrats of the Third Congressional District met in convention to-day, and nominated Wm. Jones Hughes for re-election.

The Secretary asks for \$100,000 to redeem the promise made by Gen. Harney to the nine bands of the Sioux in 1856. These bands are among the wildest and most dangerous within our limits. Good faith and sound policy demand the fulfillment of these stipulations, and it is said that unless measures are promptly taken serious disturbances will likely result.

The Duel which Didn't Take Place.—The

country regards with mingled derision and disgust the duels which so frequently almost happen between members of Congress. Of these, the latest was the Hughes and Harris affair, which was settled on Saturday or Sunday last "by the intervention of friends." This difficulty arose in the usual way. Mr. Harris had the floor.

Mr. Marshall, of Kentucky, offered an amendment, providing that no part of the money shall be applied to the interior, painting or decorating of the Capital.

Mr. Marshall, of Kentucky, offered an amendment, providing that no part of the money shall be expended for structure or painting, unless it be recommended by distinguished artists—three in number, selected by the President; the designs to receive the approbation of the Joint Library Committee.

The Senate amendment, with Mr. Marshall's proviso, was agreed to.

Lot 9. Standard do.; Barege Tissue do.; Sieland Wool do., in every variety of the present fashion.

FROM AUCTION.

1,000 PARIS GOOD DEPARTME. T.

### Poisonous Beauty.

The natural desire or all to display what personal attractions they may possess to the best possible advantage, and the pleasure which takes in upon a beautiful female face, has led the weaker sex, in many instances, to commit violations of common sense, which cause feelings of deep regret and commiseration in the breast of every true man and woman. There is no custom so foolish and frivolous as that of painting the face, or endeavoring to obtain by artificial means an unnatural complexion; and this system, which at first, we are inclined to regard as simply childish, assumes the graver nature of a crime when we regard the means adopted to attain this silly end.

For example: Arsenic is used in great quantities to produce a healthy look, rub lips and roundness of form, and we have it on good authority, that in many parts of Europe, and for such we know to the contrary, America, arsenic is eaten in large quantities, and Dr. Trebudi, the well known traveler, says "it does not seem to have any more pernicious effect than opium eating"; as if that was not bad enough! Many tons weight of arsenic are so'd annually in the form of cosmetic powders for outward application.

Sinthetic and antimony are also largely used in the manufacture of these articles, without which ladies do not consider their toilet complete; and, much as they may abhor the character of a Borgia or Brinvilliers, they are themselves provided with weapons as dangerous as either of those two females—the difference being that one does all she can to poison herself, and the other poisoned their friends. It is said of a celebrated actress, that she must, in her lifetime, have used half a hundred weight of oxyd of bismuth in the shape of cosmetic powders, and the pearl powders, rouges and the whole army of so-called beautifiers are all, more or less, highly poisonous. It surely can not be right to use or encourage the use of these articles, more especially when we know that there are plenty of vegetable compounds which will answer just as well, and will not stop the pores like poisonous mists.

The Spanish ladies use a harmless cosmetic, composed of almonds, and another of pistachio nuts, ground in water, and which are said to have no deleterious effects. We have no space to expatiate as fully as we would on the morality or the physiology of these facts, but we fulfill our duty in calling public attention to them, that the good sense of the people may rise in mutiny against painted beauty.—*Scientific American.*

**How to Know when the Weather will Change.**—One of the weather prophets, who has been a long and a seemingly scientific observer of the weather, and who does not hold to the old adage that "all signs fail in a dry time," has lately communicated the following to an agricultural paper:

When you wish to know what the weather is to be, go out and select the smallest cloud you see; keep your eye upon it, and if it decreases and disappears, it shows a state of the air which will be sure to be followed by fine weather; but if it increases in size, take your great coat with you, if you are going from home, for falling weather will be far off. The reason is this: when the air is becoming charged with electricity, you will see every cloud attract all lesser ones toward it, until it gathers into a shower; and, on the contrary, when the fluid is passing off or diffusing itself, then a large cloud will be seen breaking to pieces and dissolving.

**Fate of the Apostles**—Matthew is supposed to have suffered martyrdom, or was slain with the sword at the city of Ethiopia.

Mark was dragged through the streets of Alexandria, in Egypt, till he expired.

Luke was hanged upon an olive-tree, in Greece.

John was put into a cauldron of boiling oil at Rome, and escaped death. He afterward died of a natural death at Ephesus, in Asia.

James the Less was thrown from a pinnacle, or wing of the temple, and then beaten to death with a fuller's club.

Philip was hanged upon a pillar, at Hieropolis, a city of Phrygia.

Bartolomeus was flayed alive by the command of a barbarous king.

Andrew was bound to a cross whence he spruced to the people till he expired.

Thomas was run through the body with a lance at Cramond, in the East Indies.

Iude was shot to death with arrows.

Mathias was crucified in Persia.

Mathias was first stoned and then beheaded.

**Grammar**—"Jake, did you ever study grammar?"

"I did, sir."

"What case is Mr D—?"

"He's an objective case."

"How sp?"

"Because he objected to paying his subscription that's been owing for three years and a half."

"Right. What is a noun?"

"Don't know, but I know what a noun is."

"Well, what is it?"

"Running on without paying the printer, and getting on the black list as a delinquent."

"Good! That's a conjunction?"

"A method of collecting outstanding subscriptions in conjunction with the constable—never employed by printers until the last extremity."

"That's right! Go to your seat, and quit shooting paper wads at the girls."

One to three bottles will cure the worst kind of

Scrofula down to a common Pimple.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two bottles are warranted to cure the worst kind of scrofula in the stomach.

Three or four bottles are warranted to cure the worst kind of Erysipelas.

One or two bottles are warranted to cure all humor in the eyes.

Two or three bottles are warranted to cure running ulcers among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the most moderate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of rheumatism.

One to three bottles are warranted to cure the worst case of dyspepsia. I know from the experience of thousands that it was caused by a cancer in the stomach.

Two or three bottles are warranted to regulate a too active state of the bowels.

One or two bottles will regulate all derangement of the kidneys.

One to six bottles have cured the worst cases of dropsy.

One to three bottles have cured the worst case of piles; a relief is always experienced. What a mercy to get relief in such excruciating disease!

Since its first discovery, I have from time to time applied it to the head of any one of them, & never had any ill effect.

Dr. H. J. Williams, the Father of Medicine, says: "It is an herb singular, and in the sign Leo."

It opens obstructions of the liver, gall and spleen; it is an especial friend to the liver, with a

great relief.

It removes obstructions of the heart, gall and spleen.

It purges all burnt chyle and melancholy vapors which mix with the heart and brain, causing depression of spirits, and a languidness of the heart.

It removes obstructions of the spleen, which mix with the heart and brain, causing depression of spirits, and a languidness of the heart.

The seeds boiled in water cure the most offensive breath, and drak at belteine, preventeth what is commonly called nightmare, and all melancholy dreams; a disease billion people are liable to.

The seed of this herb is another medicine.

It is good for the heart between the lungs, and for the heart and brain.

It is good for the heart between the lungs, and for the heart and brain.

*Democratic Mass Meeting.*

The Allen County Democratic Central Committee having just been informed that the CONVENTIONAL CONVENTION for the 10th District will probably be called on about the 24th of the present month and there not being time to give notice for the Townships to hold meetings to appoint Delegates to a County Convention, have concluded to call a MASS MEETING of the Democracy of Allen County, to be held at the Courthouse on Saturday the 19th day of June at 1 o'clock P. M., for the purpose of appointing 22 Delegates to represent this County in the Congressional Convention, soon to be called.

F. P. RANDALL, Chairman.

## Fort Wayne Sentinel.

SATURDAY, JUNE 12, 1858.

Our paper is busily engaged finishing up its work, so long delayed by the interim while Kansas wrangle. The adjournment, which was to have taken place on Thursday last, has been postponed to next Monday.

The latest accounts from Washington leave no further room for the apprehension of any difficulties to come out of the outrage committed by the British on our vessels in the Gulf. The English admirals have authorized their agents to the effect of the steamer who have supplied the American vessels, and has sent parrotary orders for them to desist from their next course.

### Congressional Convention.

A letter has been received from Dr. Macdonald, of Lee County, Chairman of the 10th Congressional District, proposing to hold a Convention for nominating a candidate for Congress from that district, at Kendallville, on the 21st inst.

This will be gathered earlier than it is necessary, although earlier than it was here in the habit of holding them; but the notice is too short for getting up regular conventions in the several counties to appoint delegates to the Convention; nor have the people had the time to consider, or even begin to canvass the merits of the different persons whose names it might be a service to present to the Convention for nomination. We have not heard of any person spoken of as likely to be the elector of this county for this station, nor have we noticed in any of the democratic papers in the district a single suggestion on the subject.

The 1st of July, or first week in August, would, in our judgment, have been a better time for the convention than the one named.

We think the action of the Chancery of the Commonwealth is hasty and premature, and may cause suspicion that it is intended to promote the interests of some aspirant who has got his wings out in advance of all competitors, rather than the general good of the democratic party. We make no such charge, and hope there may be no grounds for such suspicion; but we must say it would have been better if a later day had been named, and especially if longer not be adduced given of the convention, so that the merits of different candidates might have been discussed, and our County Conventions regularly got up in accordance with the usage of the party. The shortness of this notice precludes the possibility of holding township meetings and appointing delegates to a regular county convention; our County Committee have, therefore, as we will see by a notice at the head of this column, adjourned a Mass-Convention, to be held next Saturday, in the Court House in this city, for the purpose of appointing delegates to the Congressional Convention at Kendallville on the 21st inst. — If the majority of the Congressional District Committee should agree with the Chairman that it would be advisable to hold it on that day.

Our regular County Convention for nominating candidates for County Officers, will be held at a more fitting time, of which due notice will be given.

**Murder Arrested.**—In another column will be found an account of a horrible murder committed by the notorious Jim Lane in Kansas, and the arrest and imprisonment of the hardened criminal. Jim's law career has been such as to prepare him for his present position, and no one can be astonished at the result of the lawless life he has led within that territory, and yet this blood thirsty wretch has been countenanced, supported, and held up to public admiration by numbers of respectable men calling themselves "friends to Jim." Let us hope that his fate is a warning to such charrists, not to venture to conspire and openly ruffian where any claim to distinction is a scandal disgraced of human life, and an absolute conduct for human sin. As they say so shall they reap. If a few men of the same set could accompany him to the scaffold it would be a happy thing for Kansas and the country generally.

**President.**—The heavy issue on Wednesday and Thursday last has raised many stormy higher, the most of them now drawn out, and by the time the present will be published, probably having come to a head. The situation of the British cruisers are now no orders but those of 1847. — The war has produced a great effect.

The various associations have been formed,

and it is to be the means of doing much good.

There are already twenty three members, and expect a great number to be organized, to see that such a society is well organized, to the mutual benefit of all.

We leave many warm friends and adherents here, and will doubtless acquire more wherever they stay and lecture.

**Young Men's Christian Association.**

FORT WAYNE, Ind.

At an adjourned meeting held on the 1st inst. for the purpose of organizing a "Young Men's Christian Association" in this city, H. T. Dorn, president, and H. C. Hartman, acting as Secretary, a committee before appointed for that purpose reported a constitution, and by-laws for a permanent organization, which after full discussion were unanimously adopted.

The meeting then proceeded to the election of permanent officers which resulted as follows:

Isaac Jenkinson, President; C. J. Detrich, Corresponding Secretary; M. W. Wines, Recording Secretary; George Humphrey, Treasurer; H. T. Dorn, Librarian. The business meetings will be held on the evenings of the first and third, and the devotional meetings the second and fourth, Tuesdays of each month.

The necessity of an association of social and literary character, for the moral benefit of the Young Men, has long been felt. It is the intention of this Association as soon as possible, to establish a Library and Reading Room, where young men may spend their evening hours pleasantly and profitably.

The Association has been organized under very favorable auspices, and it is to be hoped it will be, to the great benefit of all.

There are already twenty three members, and expect a great number to be organized, to see that such a society is well organized, to the mutual benefit of all.

We leave many warm friends and adherents here, and will doubtless acquire more wherever they stay and lecture.

**Washington Election—Riots, &c.**

WASHINGTON, June 7th.

Good order prevailed everywhere up to noon, today, and it was anticipated that the election would pass without any serious disturbance. The police were strongly represented and arrangements were made to let efficient and prompt. Fights of short encounters took place at several of the polls without serious results; but while officer Allen was attempting to arrest a young man named Richard Harley, he was knocked down with a stone near the 4th ward poll. Regaining his feet, he fired his revolver—shot striking Harley and dangerously wounding him. Allen then made his escape to the City Hall—a large crowd being in hot pursuit of him, when the mounted police arrived and quelled the outbreak. Major Magruder did all in his power to pacify the assemblage. In another part of the city a young man named Tretter was wounded in the hand by a shotgun. Several additional disturbances took place, in which stones and pistol were fired; but no one was seriously injured. Various false reports of disturbances put the mounted police in motion for the specific localities, and hence during the day a large number of arrests. There is much excitement to-night and nothing passed between them until Friday the 4th inst. On this day Jenkins informed Lane that he intended drawing some water from the well on the claim. Lane told him to refrain, and Jenkins paid no attention to the caution, and made his appearance near the claim during the night. He was provided with a gun and an ax, and was accompanied by three companions. As he approached he laid down his gun, and took up the ax, to knock the chain from the lock by which it was fastened. As he stepped forward Lane appeared in front of the house armed with a loaded shotgun. Jenkins gave a look of death to the City Hall—the suit concerning the title being still before the proper tribunal. This action on the part of Lane excited Jenkins, but nothing passed between them until Friday the 4th inst. On this day Jenkins informed Lane that he intended drawing some water from the well on the claim. Lane told him to refrain, and Jenkins paid no attention to the caution, and made his appearance near the claim during the night. ### Folaceous Beauty.

The natural desire of all to display what personal attractions they may possess to the best possible advantage, and the pleasure which all mankind, whether civilized or savage, takes in looking upon a beautiful female face, has led the weaker sex, in many instances, to consult violators of common sense, which cause feelings of deep regret and consternation in the breast of every true and good woman. There is no question as to foolish and frivolous as that of painting the face or endeavoring to obtain by artificial means an unnatural complexion, and this system, which first we are inclined to regard as simply childish, assumes the gravest nature of a crime when we regard the means adopted to achieve this end.

For example: Arsenic is used in great quantities to produce a healthy look, ruby lips and rosy cheeks; and we have it on good authority that in many parts of Europe, and for might we know to the contrary, in America, arsenic is eaten in large quantities, and Dr. Trebiloch, the well known traveler says - it does not seem to have any more pernicious effect than opium eating. "A fact few had known." Many tons weight of arsenic are sold annually in the form of arsenic powders for outward application.

Paint and cosmetics are also largely used in the manufacture of these articles, without which it does not consider their tablets complete, and much as they may abhor the character of a Bragg or Bravilore, they are themselves provided with weapons dangerous as either of these two female - the difference being that one is doing all she can to poison herself, and the others poison their friends. It is said of a celebrated actress, that she must, in her lifetime, have used half a hundred weight of arsenic in the shape of cosmetic powders, and the paint, rouge, rouge and the whole array of so called beautifiers are all, more or less, highly poisonous. It surely can be no right to encourage the use of these articles, more especially when we know that there are plenty of vegetable emetics which will answer just as well, and will not stop the power like poisonous metals.

The Spanish ladies use a balsom, composed of aloes and another of pistachio nuts ground in water, and which are said to have no deleterious effects. We leave no space to expatiate as fully as we would wish on the morality or the physiology of these facts, but we will call attention in calling particular attention to them, that the good sense of the people may rise in motion against painted beauty. - *Scientific American.*

*How to Know when the Weather will Change.* One of the weather prophets who has been a long and a seemingly scientific observer of the weather, and who does not hold to the old adage that "all signs fail in a dry time," has fully communicated the following to an agricultural paper:

"When you wish to know what the weather is to be, go out and select the sunniest cloud you see, keep your eyes upon it, and if it decreases and disappears, it shows a state of the air which will be sure to be followed by fine weather; but, if it increases in size, take your coat off with you, if you are going from home, for falling rain will be far off. The reason is this: when the air is becoming charged with electricity, you will see every cloud attracting all lesser clouds toward it, until it gets into a shower; and, on the contrary, when the tail is passing off, or diffusing itself, then a large cloud will be seen breaking to pieces and dissolving."

*Foot of the Apes.* - Mathews is surprised to have suffered martyrdom or was slain with the sword at the city of Ethiopia.

Mathews was stoned through the streets of Alexandria, in Egypt, till he expired.

Luke was hanged upon an olive-tree, in Greece.

John was put into a cauldron of boiling oil at Rome, and escaped death. He afterward died a natural death at Ephesus, in Asia.

James the Less was thrown from a pinnacle, or wing of the temple, and then beaten to death with a fuller's club.

Philip was hung up against a pillar, at Hieropolis, a city of Phrygia.

Bartolomeus was flayed alive by the command of a baronius king.

Andrew was bound in a cross, whence he appealed to the people till he expired.

Thomas was run through the body with a lance.

Decius was shot to death with arrows.

Simeon was crucified in Persia.

Matthias was first stoned and then beheaded.

*Grammar.* - "Jake, did you ever study grammar?"

"I did, sir."

"What class is Mr. D—?"

"He's an adjucate class."

"How so?"

"Because he objected to paying his subscription that he was owing for three years and a half."

"Right. What is a noun?"

"Don't know, but I know what a noun is."

"Well, what is it?"

"Remembering without paying the printer, and getting the black ink as a discount."

"That's right! Go to your seat, and quit showing paper wads at the girls."

A couple were recently married in Tamaqua county who, it is said, received baptism in the church in the evening, and were married the same night. The bride was 16, and her parents not consenting to the union, she obtained the license by putting the number 19 on her head and 19 in one of her shoes and swearing that she was between 18 and 19. Young Americans still abide. - *Progressive Age.*

There is a little place in this State called Barnevile, which must be a paradise for young men. The village, it is said, has one hundred marriageable young ladies, and but sixteen marriageable young men! What clever, droll fellows are in!

*Toes True.* - The most solemn duties are generally most readily undertaken. How many a man would with pleasure bear second in a duel, or stand first and taller to your chief, yet would strongly object to the loan of a five dollar bill.

If "Why is a watch dog larger at night than he is in the morning?" Because he is fat at night and taken in the morning.

A dog was taught in Mississippi recently by Mr. T. Knott and Mr. A. W. Shott. The result was that Knott was shot, and Shott was not.

Who ever heard of a widow committing suicide on account of love? A little experience may be wisdom.

A young man who has recently taken a wife, says he did not take it half so hard to get married as he did to get the furniture. Just so.

A good old Knew Nothing Methodist, having read a great deal in the papers about the Confidence Game Bill, says he thinks Confidence is going to find something better to do than to get up bills about Kansas.

"You'll have to bear the responsibility," said a mother to a bright-eyed young daughter of ours, "who thought of marrying without due material approbation. I expect to hear several, ma," said Fanny. - *Laurel Journal.*

Some citizens, said a candidate for Congress recently, are anxious to see West Indian cities, you are well aware, are almost under unfavorable circumstances, and a few of the recent rash in the Wall Street market, and the subsequent fall in the market, is the result of the influence of the importers and jobbers.

All of which they will tell to the trade, or to us, and as prices will be in advantage to the buyer, first let us make leather as good as any in the city, and then, they can sell cheap.

No. II - They buy hides and pelts.

50,000 HIDES WANTED,

For which the highest cash price will be paid, and examining one stock.

milar value, as far as possible, as follows, considered  
as can be purchased in any market.

22-25, addressed with dispatches.

Jan. 15, 1858.

B. W. OAKLEY

Will give his exclusive attention to the  
HARDWARE BUSINESS,

and will keep on hand an extensive assortment  
of HARDWARE well selected to suit its market  
and the best quality.

He will sell iron, steel, wrought  
iron, and galvanized iron, sheet iron, tin, &c.,  
to persons in business, and with hardware  
in his stock may be found

Screws, Staples, Forks, Rakes, Hoes, Shovels,  
Grain Cradles, Sledges, &c.

GUN & CANNON ALUMINATE.

W. MITTLEHORST & CO. We are prepared to  
do with horses, teams, &c., what any one  
can do with his own team.

Our late war, our civil war, and our  
present war, we have had a large amount  
of work to do, and we are prepared to do  
what any one else can do.

Our horses, teams, &c., are well trained  
and we are prepared to do what any one  
else can do.

Our horses, teams, &c., are well trained  
and we are prepared to do what any one  
else can do.
